

Clouds Over Mountains

Lyrics by John H. Chilson, Music by Vi Wickam – 2020

Clouds over mountains, a beautiful sight
I'm sitting here thinking of holding you tight
Passion's the fashion when everything's right
And I'm dreaming the whole day away

You're on my mind most of the time
Everything's right and the stars will align
Mnemonic forces create the design
And we'll feel them together that way

Your hair is light sunlight, your eyes are so blue
The love that you give me is rose in its hue
The caring and sharing is my dream come true
I've never met someone like you

In the shadows of clouds is where we find rain
Giver of life in nature's domain
I hold my arms wide knowing you'll come again
And nourish all my needs away.
